polyethylene armrest (U-C5)
and optional front wheels (U-C2)

MAINTAINING PATIENT AUTONOMY

Stackable and sturdy

Adaptable, functional and sturdy

In long-term care, armchairs of this kind are subject to intensive use. In fact, they are often moved with the patient to be closer to a table, a sink, or during an activity. To face those challenges, the UTILITY was designed to be sturdy, stackable and to be able to withstand heavy use. Whether for common areas, dining rooms or bedrooms, it will certainly meet all your needs.
